

## BOMI CARGO

Bomi Group, in collaboration with its branch, Bomi Colombia, in order to extend its presence in Latin America, has created BOMI CARGO, a transport company dedicated to the healthcare sector.

This new division is able to provide “tailor- made” services and solutions in order to guarantee quality and exclusiveness over all the shipment processes to all our current clients and all the companies that will desire to incorporate themselves with us.

Thanks to our Corporate IT department, that every day develops new applications to optimize the information management, BOMI CARGO is able to guarantee more security for our provided services. Our clients will be able to value all the advantages that BOMI CARGO offers and follow their products shipment up to the final destination, being able to check all the steps and documentation directly from their smart devices.

- Shipments by air and by road
- Packaging and physical massive storage
- “Final mile” service
- Medical devices transport
- Urgency attention 24/7
- Return
- Dangerous and biological materials shipments
- Traceability
